Woman Tells How Lydia E. Pinkham's Vegetable Com-pound Restored Her Health.

Lima, Ohio. —"I was all broken down in health from a displacement. One of my lady friends came to see me and she ad-

vised me to com-mence taking Lydia E. Pinkham's Vegetable Compound and to use Lydia E. Pinkham's Sanative Wash. I began taking your remedies and took \$5.00 worth and in two months

was a well woman after three 'doctors said I never would

stand up straight again. I was a midwife for seven years and I recommended the Vegetable Compound to every wo-man to take before birth and afterwards, and they all got along so nicely that it surely is a godsend to suffering women. If women wish to write to me I will be delighted to answer them." -Mrs. JENNIE MOYER, 342 E. North St.,

John Elliott, Murderer of Burton and Sybil Pettis, Dies Early Tuesday paredness — Naturalization Session Merning—Wound in Skull Caused by Shot from Revolver Fired Work for No License—Names of Through Elliott's Mouth-His Aunt Claims His Body.

Lying on his cot in the hospital ward in the Windham county jail in Brooklyn, John Elliott, murderer and most despised of men, closed his eyes at 4.50 Tuesday morning and died, his lips sealed forever, without having uttered one word of his story of a crime that is the most brutal in the criminal records of Windham county.

Fired Pistol Through Mouth.

Elliott's death was due to a self-inflicted bullet wound. It was learned during Monday night, when Elliott's condition became grave and his mouth, which he has kept closed, was pried open, that the roof of the mouth had been torn open by a bullet from a magasine pistol, the muzzle of which he had evidently thrust into his mouth, and that the steel-jacketed bullet had torn its way upward through the head, penetrated the brain and had come out through the skull, causing the fracture that was the outward sign that Elliott was badly hurt. How the man lived for almost a week after having so terribly wounded himself, is regarded as something of a marvel and there is no doubt that he suffered untold agony during the days Fired Pistol Through Mouth. marvel and there is no doubt that he suffered untold agony during the days following his attempt to destroy his own worthless life. But whatever pain he suffered he endured with the stoicism of a Spartan, never giving the slightest hint even as to how he came by his injury.

Never Mentioned Crime.

Never Mentioned Crime.

From the time of his capture under a wagon shed at the Roland Mills place in Thompson, last Thursday morning, to the hour of his death, he spoke only a limited number of words—and not a solitary one about the crime. It is probable that he could have told something about what happened at the Pettis place if he had cared to do so on the morning of his capture, for he did show some clearness of mind, though he was in a deplorable condition, but he refused to answer questions and as time went on his condition became critical. The story of his attack upon Mr. Pettis, the beginning of the affair that ended in a double murder, will be buried with Elliott, for only victim and murderer know what took place in the with Elliott, for only victim and murderer know what took place in the rear of the Pettis homestead, where it is now established that Elliott fired his first shot.

Body Claimed by Aunt.

Elliott's body was claimed Tuesday there was very little change in the condition of Miss Lillian Parker, injured in an accident at Danielson on the night of May 1. Her condition is regarded as extremely critical.

Elliott's body was claimed Tuesday afternoon by his aunt, Mrs. Daniel Arnold, resident in Thompson. She was his mother's sister and even under the dark pall of the circumstances surrounding her nephew's death she has shown the strength of her charity in taking upon herself the duty of providing burial.

Bitter Feeling Against Murderer.

card, is still in a very nervous condition as the result of the terrible experience through which she passed. She said Tuesday that it is her belief that Elliott never went far from the site of his crime, though she says there is no truth in the story that she heard a shot during the night following the murder, this shot supposedly fired when Elliott inflicted what proved to be his own fatal wounds.

SCOUTING FOR MOTHS L. W. Davis and Men at Present

have been at work in this part of the country throughout the winter. They have found and destroyed thousands of egg masses and are now preparing for the caterpillar season, which begins next week.

No egg masses have been found in the town of Killingly, where the moth has been present in the past. Brook-lyn yielded a small number, Woodlyn yielded a small number, Wood-stock, Putnam, Pomfret and Thomp-son were found to be quite badly in-fested. The work at this time is be-ing carried on chiefly in Woodstock. Mr. Davis says that 72 towns in Connecticut have been or are infest-ed with moths and that the govern-ment's quarantine line includes prac-tically all of the eastern end of the tically all of the eastern end of the

May Withdraw Suit Against Treasurer.

In the town of Brooklyn notices have been posted for a special town meeting Saturday, when the voters will pass upon the proposal to have the town withdraw its suit against former Town Treasurer George Eastment. The suit was brought following.

Study of means by which the moths are distributed develops the interesting fact, Mr. Davis says, that what is known as wind-spread is responsible for the increasing are in which they are found. This means that storms drive them into new areas. The means adopted by the crew working under Mr. Davis direction to exterminate the moths is intensely interesting. The work being done in this section is costing a great deal of money.

Your Money **Buys Quality!**

Coupons or premiums have never been used as an inducement to smoke Prince Albert!

The correctness of our belief that smokers do prefer quality rather than premiums or coupons is proven by the enthusiasm with which Prince Albert pipe and cigarette tobacco has been received throughout the civilized world! Premiums or coupons have never been offered as an inducement to smoke it!

Neither national nor state restrictions on the use of premiums or coupons can in any way affect Prince Albert's sale!

It is not to be wondered at that when smokers consider a choice of tobaccos, their tastes - based on quality-instantly turn them to

the national joy smoke

Prince Albert is sold strictly on merit. It is a tobacco of choice quality, and made by an exclusive patented process that does cut out bite and parch! It took three years and a fortune to perfect that process so that today every man with a desire to smoke a pipe or roll his own cigarettes can do so without a comeback, no matter how tender his tongue or throat may be!

Your taste and satisfaction is proof that Prince Albert quality is more desirable than coupons or premiums.

You buy Prince Albert everywhere tobacco is sold, in toppy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin humidors, and in that fine crystal-glass humidor with sponge-moistener top that keeps the tobacco in such perfect condition.
